1. Read the following story and do the activities that follow.

[15]

Once upon a time a dishonest king had a man called the Valuer in his court. The Valuer set the price which ought to be paid for horses and elephants and the other animals. He also set the price on jewellery and gold, and things of that kind. This man was honest and just, and set the proper price to be paid to the owners of the goods. The king, however, was not pleased with this Valuer, because he was honest. "If I had another sort of a man as Valuer, I might gain more riches," he thought.

One day the king saw a stupid, miserly peasant come into the palace yard. The king sent for the fellow and asked him if he would like to be the Valuer. The peasant said he would like the position. So the king had made him Valuer. He sent the honest Valuer away from the palace.

Then the peasant began to set the prices on horses and elephants, upon gold and jewels. He did not know their value, so he would say anything he chose. As the king had made him Valuer, the people had to sell their goods for the price he set. By and by a horse-dealer brought five hundred horses to the court of this king. The Valuer came and said they were worth a mere measure of rice. So the king ordered the horse-dealer to be given the measure of rice, and the horses to be put in the palace stables. The horse-dealer went then to see the honest man who had been the Valuer, and told him what had happened. "What shall I do?" asked the horse-dealer. "think you can give a present to the Valuer, which will make him do and say what you want him to do and say," said the man. "Go to him and give him a fine present, then say to him: 'You said the horses are worth a measure of rice, but now tell what a measure of rice is worth. Can you value that standing in your place by the king?' If he says he can, go with him to the king, and I will be there, too."

The horse-dealer thought this was a good idea. So he took a fine present to the Valuer, and said what the other man had told him to say. The stupid Valuer took the present, and said "Yes, I can go before the king with you and tell what a measure of rice is worth. I can value that now. "Well, let us go at once," said the horse-dealer. So they went before the king and his ministers in the palace.

The horse-dealer bowed down before the king, and said: "O King, I have learned that a measure of rice is the value of my five hundred horses. But will the king be pleased to ask the Valuer what is the value of the measure of rice?" The king, not knowing what had happened, asked, "How now, Valuer, what are five hundred horses worth?" "A measure of rice," "O King" said he. "Very good, then If five hundred horses are worth a measure of rice, what is the measure of rice worth?" The measure of rice is worth your whole city," replied the foolish fellow.

The ministers clapped their hands, laughing, and saying, "What a foolish Valuer I How can such a man hold that office? We used to think this great city was beyond price, but this man says it is worth only a measure of rice." Then the king was ashamed, and drove out the foolish fellow. "I tried to please the king by setting a low price on the horses, and now see what has happened to me" said the Valuer, as he ran away from the laughing crowd.

'समालोचना' शब्दको सामान्यार्थ कुनै पनि विषयवस्तु वा कुराबारे यथै कोणबाट राम्ररी हेर्नु भन्ने हुन्छ । साहित्यका सन्दर्भमा भने कुनै पनि साहित्यिक कृतिको निष्पक्षताका साथ गुण र दोषको अवलोकन गर्नु भन्ने अर्थ प्राप्त हुन्छ । अन्तर्मा कुनै पनि साहित्यिक कृतिको गुण र दोषको निरूपण गरी उक्त कृतिको व्याख्या र मूल्याङ्कन गर्नु नै समालोचना हो भन्न सकिन्छ । समीक्षा, आलोचना, विवेचना र पाठक प्रतिक्रिया शब्दले पनि समालोचनाले सङ्केत गर्ने अर्थ दिने भएकाले यिनलाई पनि समालोचनाकै नामान्तरका रूपमा लिने गरिन्छ । समालोचना सृष्टिप्रतिको दृष्टि हो । सृष्टि भनेको सिर्जना हो भने दृष्टि भनेको त्यसलाई हेर्ने साधन वा काम हो । कुनै पनि सृष्टिको सौन्दर्यको अवलोकन, विश्लेषण र मूल्याङ्कनका लागि दृष्टिको आवश्यकता पर्ने भएकाले हरेक क्षेत्रमा पहिले सृष्टि वा सिर्जना हुन्छ त्यसपछि मात्र त्यस वस्तुको अवलोकन गर्ने दृष्टिको विकास हुन्छ । समग्र संसारकै कुरा गर्दा पनि पहिले जगतको सृष्टि भएको र त्यसपछि मात्र उक्त जगतको सौन्दर्यको अवलोकन र विश्लेषण गर्ने दृष्टियुक्त जीवको विकास भएको देखिन्छ । समालोचना पनि सिर्जनालाई हेर्ने दृष्टि भएको कारण सिर्जनाभन्दा कनिष्ठ विद्या हो । विश्व साहित्यमो नै समालोचना सिर्जनापछि आउनुले यस कुराको पुष्टि हुन्छ । पूर्वमा 'रामायण' र 'महाभारत' को सिर्जना भएपछि मात्र तिनका विविध पक्षको अवलोकन गर्ने उद्देश्यले मरुत मुनिने 'नाट्यशास्त्र' को रचना गरेका हुन् । पश्चिममा होमरका सिर्जनात्मक कृति 'इलियड' र 'ओडिसी' को रचना गरिएको लामो समयपछि मात्र प्लेटोका समालोचनासम्बन्धी विभिन्न विचार र एरिस्टोटलको 'काव्यशास्त्र' आएका छन् । नेपाली साहित्यकै कुरा गर्दा पनि उदयानन्द अर्यालको 'पृथ्वीन्द्रोदय', भानुभक्त आचार्यको 'रामायण' आदि धेरै काव्यकृतिको सिर्जना भइसकेपछि मात्र उक्त कृतिको गुणदोषको मूल्याङ्कन हुन थालेको देखिन्छ । नेपालीमा कवि र काव्यकृतिको अवलोकन र मूल्याङ्कन गर्ने कार्यको थालनी मोतीराम भट्टले गरेका हुन् । उनले भानुभक्त र उनको रामायणको मूल्याङ्कन गर्ने उद्देश्यले रचना गरेको 'कवि नेपाली, भानुभक्ताचार्यको जीवन चरित्र' नेपाली साहित्यप्रतिको दृष्टि प्रस्तुत भएको पहिलो कृति हो । मोतीरामको यो कृति जीवनीपरक भए पनि प्रस्तुत कृतिमा कवि भानुभक्त र उनको काव्य 'रामायण' का बारेमा केही विवेचनात्मक दृष्टि प्रस्तुत भएकाले नेपाली समालोचनाको प्रथम कृति यसैलाई मानिएको छ । यसैले कुनै पनि साहित्यकारका विशेषता वा साहित्यिक कृतिका गुणदोषको वस्तुगत विवेचना गर्ने विद्या नै समालोचना हो ।

प्रश्नहरू:

(क) समालोचनाको मुख्य कार्य के हो ?

(ख) 'सृष्टि' र 'दृष्टि' शब्दले के के बुझाएका छन् ?

(ग) पाश्चात्य साहित्यका प्रथम सिर्जनात्मक र समालोचनात्मक कृति कुन कुन हुन् ?

(घ) 'कवि भानुभक्ताचार्यको जीवन चरित्र' जीवनीपरक कृतिलाई किन नेपाली साहित्यको प्रथम कृति मानिन्छ ?

१०. तलको अनुच्छेदबाट चार ओटा बुँदा टिपी एक तृतीयांश लेख्नुहोस् :
